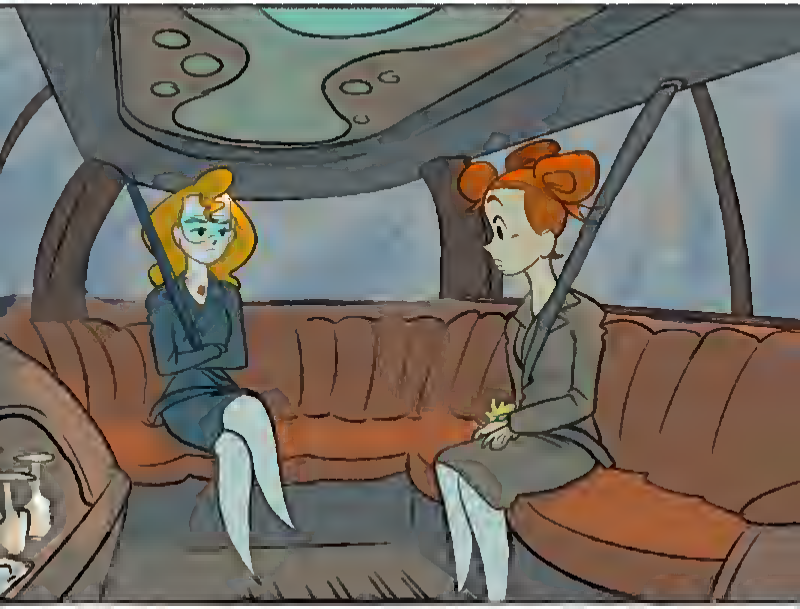
Maybe he wasn't such a dork after all.



Zeph, I mean.

He did get you that beautiful

KOKOMO

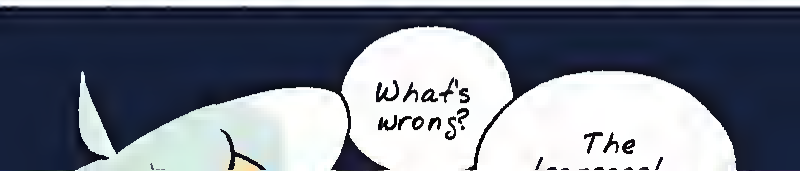
Hey--
What are those idiots doing?



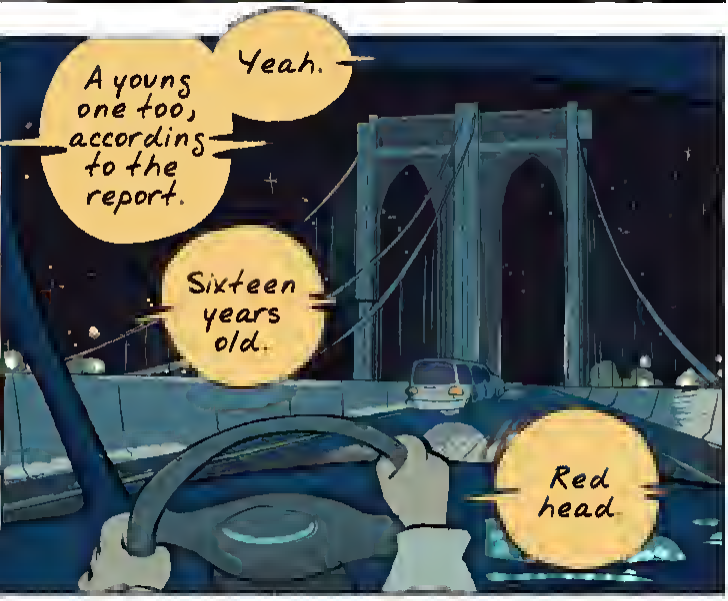
What's wrong?
The

transport--
--they just took an off-ramp back into the city...
Agent Becker this is Dr. Kim.
Come in, please...

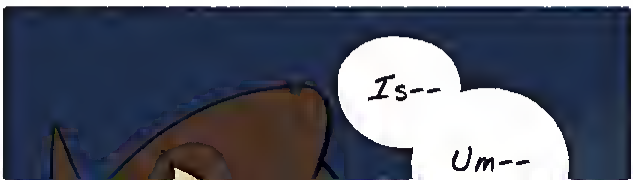
Becker here.
Where are you going, soldier?
New orders, sir.
Commander Saito says we're needed back in Kokomo.
What?!

No one told me about this!
Well, you're not needed, sir.
Just the transport.
Why?
What's going on?
Saito uncovered the identity of the spy from last night.
She needs a few of your three-eyed robots to go in and make the hit.

Of course they're all stowed here on the transport so I have to bring them back into town first.
Oh.
I see.
I'm surprised the spy is still in Kokomo.
I thought he'd belong gone by now...
Actually, it's a "she," sir.
What?
The spy is female?



Yeah.
A young one too, according to the report.
Sixteen years old.
Red head

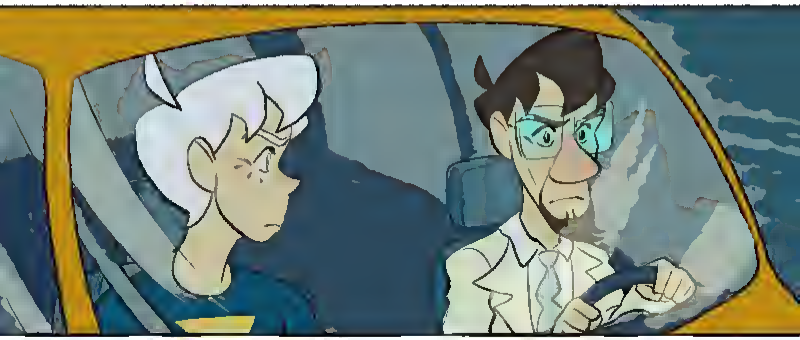


Is--
Um--

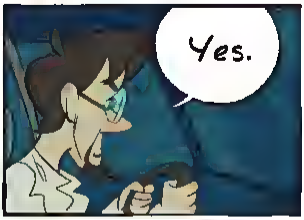
Did the report mention her name?

...
I see.

Thank you, Becker.
Good bye.



Is Amy in danger?



Yes.

Turn around.
Now.
To do what exactly, Oliver?
Saito has the

whole military department at her fingertips--
There's no stopping her.

Sigh...

I don't have time for this.
CLICK!

Oliver!
